Hello David!

I just wanted to take some time to thank you for doing what you did to make orientation so successful. It was a bit overwhelming at times, but I really appreciate you three going the extra mile (always) to ensure we are ready for success with our best foot forward. I love the fact that you come to WSU-R right from your job as a principal and can always share your point of view on things. As future teachers who will soon be on the hunt for jobs, it is really reassuring and beneficial to know what principals are looking for in a candidate.

I am bummed that you will not be teaching our global studies course this semester, but I hope you know how much fun was had this summer at STEM camp with you and Bryan. Being able to be in person was amazing and I hope we can do it all over again someday. I know you said today that you would be willing to come in and observe us sometime and I think that would be an awesome opportunity if time allows. I would still be interested even if it were during the Spring semester. I really appreciate how caring and compassionate you are.

Graduation seems like it is so far away, but I know it will be here before we know it. I would love to chat sometime about graduate school and the different options regarding that if you are ever available. I have been thinking heavily about applying for GIP, but I do not want it to be my only plan in case I do not get in. Do you have any thoughts on this? Have you heard of, or do you know of any programs like GIP around here?

I know that was a big email so please take your time getting back to me. Absolutely no rush! I hope you have a great orientation tomorrow and a relaxing weekend before classes begin again next week. Thanks again for always being such a huge help!

I really appreciate you! 😊

Sincerely,  
Dylan
